CEREBRAL CORTEX | Landmarks and functional areas.

Unlabelled views of lateral and medial surface of the cerebral hemisphere, for marking major landmarks (sulci, gyri) and functional areas.

You may want to print more than one copy of this page.

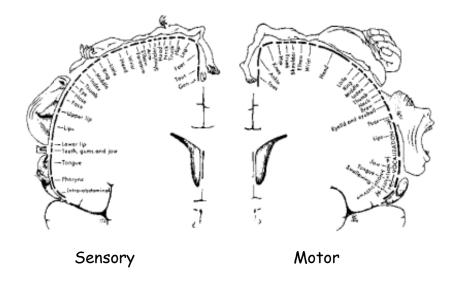

Some major landmarks.

Lateral sulcus, central sulcus, calcarine sulcus, intraparietal sulcus. Pre- and post-central gyri, superior temporal gyrus, cingulate gyrus, parahippocampal gyrus, uncus.

Functional areas of cerebral cortex.

Primary motor, supplementary motor, premotor, frontal eye field.
Primary somatosensory, primary visual, olfactory, taste, primary auditory.

Homunculi.

Insula and superior surface of temporal lobe.
