

# ES83 Rocks Exercises

10/4/2006

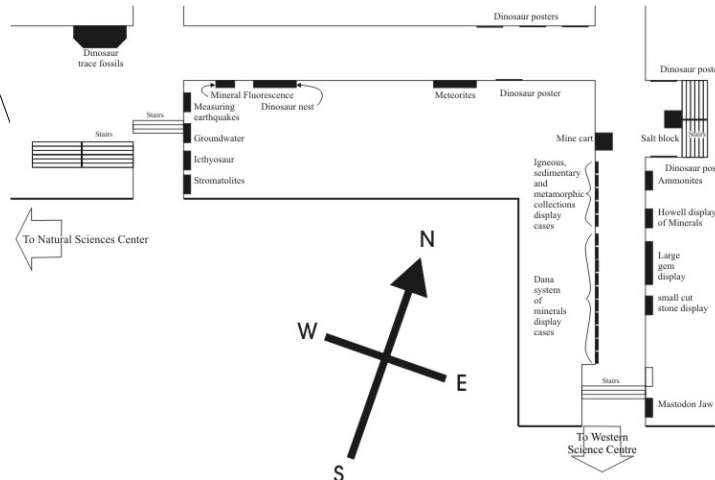

1

## Assignment

- The rocks for the assignment can be found in a cabinet in the main floor, east hall of B&G. The cabinet is just to the south of room 123.

The rocks are labeled with letters and numbers in order to make it possible to easily select and record your choices.

# Location Map

- The assignment cabinet (containing minerals, rocks and fossils) is located next to B&G123.
- The assignment drop box (just north of the white rectangle) is located just south of B&G118.

10/4/2006

**Use the charts provided for comparing rock textures and also look at the rock examples near the cabinet containing your rock specimens !**

**Cam has also provided a few tips on how to identify rocks in a separate document on the course website.**

# Fair Warning!

- The short practical assignments are due on the Tuesday following the day of which they are assigned before 4:00 pm (the week's assignment on rocks is an exception- the rocks assignment will be due next Thursday (Oct. 12) at 4:00 pm (to accommodate for the long weekend))
- Those submitted after that time are subject to a 10% penalty!
- Twenty-four after that the penalty becomes 20% and increase by 10% for each successive day (excluding weekends).
- The assignment drop box is located just south of 118 in B&G.
- The drop slots are the bottom two and are clearly marked for ES083.
- Misplaced assignments will also be subject to a 10% penalty!
