## Grid Systems - Display grids on Google Earth

A user account is recommended for the features on this web page. 

Display grid systems on Google Earth. Lat/Lon, UTM, UPS, MGRS, USNG, and Georef are supported. As you zoom in the grids are redrawn at greater levels of detail. WGS84 datum.

You are not signed in to your account. For unrestricted access, please [sign in](#) or [purchase](#) a subscription. You must have Google Earth installed to use this data.

 Enhanced feature. [What is this?](#)

### Grids supported

- Deg Decimal degrees
- DegMin Degrees, decimal minutes
- DegMinSec Degrees, minutes, decimal seconds
- Georef World Geographic Reference System
- UTM Universal Transverse Mercator
- UPS Universal Polar Stereographic
- MGRS Military Grid Reference System

### Disclaimer

When zoomed in fully, these grids are displayed at resolutions of 1 meter or less. Yet the Google Earth imagery is sometimes shifted by 10 meters or more. Always cross-check your findings. For information only. User to verify all information.

UTM Grid. Royal Observatory, London, England. Click for larger image.

Texas Land Survey on  
Google Earth.

[more...](#)

### State Plane

State Plane coordinate  
system for the United  
States is supported.

Read the blog article  
for [more...](#)

### Share your story with Google

Interesting project?  
Google wants to hear  
about it!

### New Movie

I made a short video  
highlighting a few real  
estate features of Earth  
Point. It is a bit rough,  
but please enjoy.
